PROFESSIONAL EXPERIENCE

MINISTRY OF DEFENCE — EXECUTIVE OFFICE

Sep 2025 – Present

Leadership Programme Participant

Abu Dhabi, UAE

- Selected for a competitive leadership programme featuring cross-functional assignments, senior executive exposure and a strategy consulting secondment.

Strategic Communications Assignment

Apr 2026 – Present

- Supported an enterprise-wide MOD rebranding programme encompassing visual identity, organisational narrative, business case, budget and phased implementation; coordinated with the Executive Director, external agency and branch representatives.
- Presented the visual identity approach to branch leaders and senior Strategic Communications leadership; designed and facilitated narrative workshops and created a standardised branch template.

KEARNEY — STRATEGY CONSULTING PLACEMENT (SECONDMENT)

Oct 2025 – Apr 2026

- Benchmarked reverse-solicitation policies across six regulatory regimes for the Central Bank of the UAE and presented recommendations to the Governor.
- Developed an international-visitor persona and adoption journey, identifying stablecoin payment use cases for a global payments company
- Assessed Saudi banking-licensing requirements and drafted key sections of a leading UAE bank's application.

MINISTRY OF DEFENCE — SIGNAL CORPS

Nov 2024 – Aug 2025

Head of Monitor and Control

Abu Dhabi, UAE

- Led a 10-person team across two rotating shifts, providing 24/7 monitoring and control for a mission-critical MOD fibre-optic network integrating three vendor platforms.
- Redesigned executive reporting and introduced structured alarm analysis and standardised shift handovers, improving clarity and continuity across both teams and informing leadership decisions on maintenance, upgrades and training.
- Trained approximately 25 new employees in NOC operations, monitoring procedures and fibre-optic fundamentals.

INTERNATIONAL GOLDEN GROUP (IGG)

Dec 2021 – Oct 2024

Senior Engineer

Abu Dhabi, UAE

- Supported secure MOD transmission-network operations across Ciena OTN, Nokia OTN and SDH infrastructure, including provisioning, monitoring, troubleshooting, preventive maintenance and documentation.
- Coordinated network-resilience measures during the UAE's severe 2024 rainfall, maintaining critical connectivity for priority users; also contributed to multi-entity government network projects.

EDUCATION

AJMAN UNIVERSITY

Jan 2019

Bachelor of Science in Information Technology — Networking and Security

Ajman, UAE
