EMPLOYMENT HISTORY

Strategic Communications, Executive Office, Ministry of Defence, Abu Dhabi

APRIL 2026 — PRESENT

- Supported strategic communications initiatives, developing messaging frameworks, campaigns, engagement plans, and executive materials aligned with leadership priorities.
- Coordinated internal teams, senior stakeholders, government entities, and external partners to deliver media campaigns, leadership engagements, major events, and strategic programs.
- Supported the Jahizoun leadership development program through communications, branding, stakeholder engagement, and event planning, ensuring messaging and effective delivery.

Consulting Associate, PwC, Abu Dhabi

OCTOBER 2025 — APRIL 2026

- Delivered research, benchmarking, gap assessments, and qualitative analysis to support strategy, policy, organizational development, and government-transformation engagements.
- Assessed current-state performance and benchmarked governance and government-to-government collaboration models, identifying improvement opportunities and informing actionable recommendations.
- Developed policies, governance frameworks, executive presentations, and strategic reports, translating complex challenges into structured workstreams and clear recommendations.

Signal Corps, Ministry of Defence, Abu Dhabi

OCTOBER 2024 — SEPTEMBER 2025

- Maintained secure IT and communications infrastructure, supporting reliable network, system, and server operations within a defence environment.
- Coordinated technical projects from requirements gathering through implementation, working with internal teams, contractors, and external stakeholders.
- Diagnosed technical issues, monitored project progress, and delivered clear documentation and management updates.

Computer Programmer, Golden Technology Solutions L.L.C., Abu Dhabi

SEPTEMBER 2023 — SEPTEMBER 2024

- Developed, tested, maintained, and troubleshoot IT systems, translating business requirements into effective technical solutions.
- Resolved system and user issues while coordinating with stakeholders, documenting solutions, and adapting to evolving project requirements.

Information Technology, Korean Technology Inspection Middle East L.L.C., Abu Dhabi

JUNE 2022 — AUGUST 2023

- Managed IT operations across networks, systems, hardware, and software.
- Installed and maintained IT systems while resolving technical issues.
