EDUCATION

Royal Military Academy Sandhurst — **Sandhurst, United Kingdom**
Commissioning Course 232 — *Graduation Date: April 2024*

- Commissioned as a 2nd Lieutenant into the UAE Armed Forces after completing the RMAS Regular 44 Week Commissioning Course.
- We covered military field topics such as the 7 Questions planning process for Platoon Attacks (both Hasty and Deliberate), Ambushes, Raids, Defense Operations, Stabilization Operations, and Urban Operations.
- I was in the Sovereign's Platoon, also known as the Champion's Platoon (20 Platoon CC232).
- I produced an excellent report in the academic field of the Sandhurst Course which included Defense Studies, War History and Psychology.

Henley Business School, University of Reading — **Reading, United Kingdom**
Level 4 Diploma in Leadership and Strategic Studies — *Graduation Date: November 2024*

- I completed the British Army Higher Education Program (AHEP) in Sandhurst and was the only International Cadet of my intake to complete it.
- This program was in conjunction between Sandhurst and University of Reading for Army Higher Education, and I was awarded a Level 4 Diploma for completing this program.
- This Diploma is recognized by the UAE Ministry of Higher Education & Scientific Research and is registered in my military profile.

Institute of Leadership and Management (ILM), City and Guilds — **Sandhurst, United Kingdom**
Level 5 Diploma in Leadership and Management — *Graduation Date: April 2024*

- I was awarded this Level 5 Diploma upon graduating from Sandhurst as a result of the leadership academic studies we have learnt and covered in their leadership and psychology program.
- We were taught on how to work with soldiers and foreign forces on a professional and personal basis along with force management.
- We were also taught crisis management, negotiation skills, and how to deal with the public media.

GEMS Dubai American Academy High School — **Dubai, UAE**
American Highschool Diploma — *Graduation Date: June 2020*

- I graduated from GEMS DAA with an American Highschool Diploma accredited by both the UAE Ministry of Education and the American School Accreditation Standard.
- Topics I have studied include IB Physics, IB Math, and IB English Language and Literature.

Military Courses

JTAC Course 32nd Batch (UAE School House) — **Joint Fires Wing, Abu Dhabi UAE**
1st Place — *August 2025*

- I ranked 1st Place in this course as a result of my overall performance out of 17 students.
- I received a final performance of "Excellent" with an average final score of 93%.
- Out of the 17 graduates, I am one of only 6 that passed the English exam requirement to be a JTAC to the international (MOA) standard.

UAE PG KBZ Airborne Infantry Basic Course 4th Batch (دورة محمول جواً) — **PGI, Al Ain UAE**
1st Place — *February 2025*

- I ranked 1st Place in this course as a result of my overall performance out of 70 students.
- I was one of two platoon commanders in the final exercise which involved a night air assault operation into an urban compound.
- We covered both airborne and air assault tactics and strategies and emphasized on night operations with NVDs, the main focus was on airfield seizures.

UAE PG Selection 1st Batch — **Sas Al Nakhl, Abu Dhabi UAE**
Officer Selection Course for PG — *November 2024*

- I was a part of the 1st batch of officers to complete the UAE PG Selection that was conducted in Sas Al Nakhl Special Operations Command and was subsequently placed into the UAE PG Khalifa Bin Zayed II Airborne Brigade.

UAE PG Basic Course 113th Batch **PGI Twam, Al Ain UAE**
1st Place *September 2024*

- I was ranked 1st Place in this course as a result of my performance out of 99 students.
- We covered UAE PG basic tactics and doctrine, including navigation, marksmanship, section and platoon attacks.

UAE PG Airborne Course 281st Batch **Sweihan, Abu Dhabi UAE**
1st Place *February 2023*

- I was ranked 1st Place in this course as a result of my performance out of 106 students, including 105 cadets and 1 officer as this was completed during my time as a cadet in Zayed II Military College.
- I completed all 5 mandatory parachute jumps using the MC-6 parachute, including one night jump and one jump in full gear (rifle and rucksack).

UAE Navy Gunners Course 14th National Service Batch (B Group) **Al Taweelah Naval Institute, Abu Dhabi**
1st Place *March 2021*

- I was ranked 1st Place in this course during my time in National Service with an average score of 99.1% after completing 18 exams over the course of 70 days.
- I was tested on 11 weapon systems that the UAE Navy was equipped with at the time and scored a perfect score in 10 of the 11 weapon exams.
- In case it does not show up in my current records, my military ID at the time was NS 104906.

SKILLS & INTERESTS

Computer: Proficient in Microsoft Word, Powerpoint, Excel, various editing and AI tools.

Language: English, Arabic and Chinese (Mandarin)

- English TOEFL exam score (September 2024): **116/120** (IELTS 8.5)
- SAT score (August 2024): 1290
  - Reading and Writing: 680
  - Math: 610

Drones: GCAA Certified Professional Drone Operator

- FPV Drone building and flying course by Melaaha Drones - GCAA Approved institute

Scuba Diving: PADI Master Scuba Diver

"Where do I see myself in this career?"

I want to serve my country in the greatest capacity that I can possibly offer. I both enjoy the field aspect of this career and the strategical aspects of it.

I truly believe the Jahizoun program is the leadership enhancement and development program that will transcend the leadership theory and skills that I have learnt at Sandhurst and as an officer in the UAE military to the next level. I am fully committed to the program if I had the blessing of being accepted, and I am looking forward to taking the knowledge and experience I gather from this program back to the military as a better officer.

Career wise, I see myself in the intelligence, advisory and strategic field of the armed forces, as I have a great interest in clandestine operations and the unconventional methods that can be used to achieve the greater national interests, both in the office and in the field. I want to be a part of the larger effort in transforming the armed forces into what our leadership envisioned to be.

I consider all possibilities, including any opportunities that may arise outside of the military if the higher leadership and state deems it necessary.

I am at this nation's service.

Lieutenant Khoory was a pleasure to teach during his year at the Royal Military Academy Sandhurst. Initially quieter and more reflective, though always professional and diligent, he improved greatly as his wider knowledge of the subject matter improved. Polite, engaged and engaging, he became a regular and effective participant in a lively seminar group, contributing to all aspects of our classroom discussions without dominating or talking over other students; in that sense, his participation, as well as being academically sound, was constructive for his fellow students. He passed all of the formal assessments, both group-based and individual, oral and on-line written exams, and completed the requirements for the British Army's Higher Education Programme (AHEP).

It is worth – to place his achievements into context - noting the particular academic challenges posed by study, both within the Academy generally and with regard to AHEP specifically, which he chose to participate in (as an International student, he could have opted for the potentially less stressful non-AHEP programme, which takes a different form of assessment across all three academic departments, my own, War Studies – which explores military history and tactics – and Communication and Applied Behavioural Science, which takes a more psychology based approach to leadership and negotiation skills). Not only did he opt for the more strenuous academic assessment, he also ended up carrying out the equivalent work of a four person UK group report on his own, for reasons beyond his control. His determination to both undertake and complete this task was impressive and is testament to his commitment and competency.

Additionally, It is fair to say that the Academy provides a particular and potentially unique educational challenge, based around a blend of academic and military tasks undertaken within a particularly cramped timetable – one that would put most undergraduate courses to shame. Sandhurst cadets undertake First Year university approved teaching (AHEP is sponsored by the University of Reading) within the context of an already mentally and physically demanding 'day job' as putative Army Officers, with all that entails in terms of time management, multi-tasking and managing sleep deprivation. In addition, International students – operating in the main at the same level as their UK undergraduate and postgraduate equivalents – also have to manage the cultural and linguistic challenges that come from studying abroad (although there is absolutely no problem with his written or spoken English). To complete the course effectively, as he has done – opting into a more challenging set of assessments in the process – speaks volumes for his character and continued commitment, which is just one of the reasons he was selected to attend the Academy in a competitive process.

As a result of both his character and capacity to learn and improve further, I have no hesitation in recommending him – he has been one of the best students I have taught in my 22 years at the Academy. If all students were like him, willing to learn and happy to take responsibility for his own analytical development, my life would be much easier! He will do well in whatever future challenges he faces, both academic and within his wider military career, as he has both the attitude and aptitude to succeed.
