PROFESSIONAL EXPERIENCE

2023 - Present

EPI, EDGE PJSC, Abu Dhabi

NAS Engineer (Non-Aerospace Structures)

- Leading 5+ concurrent New Product Industrialization (NPI) and Maintenance, Repair & Overhaul (MRO) projects, ensuring successful execution across Defense and Oil & Gas programs.
- Led SAP ERP master data implementation, and managed configurations for 100+ new materials, enabling smooth production planning and operational execution.
- Evaluate manufacturing feasibility, repair strategies, and operational risks to support commercial and technical decision-making.
- Collaborate directly with customers and internal leadership to communicate project progress, resolve technical challenges, and align execution strategies.

2023

Weatherford, Abu Dhabi

Intern (3 Months)

- Led a data-driven operational improvement project focused on enhancing service quality and process performance.

2022

ADNOC Offshore, Abu Dhabi

Intern (2 Months)

- Gained exposure to offshore operations, drilling principles, and project execution within one of the region's largest energy companies.

2022

Petrojet, Abu Dhabi

Intern (3 Months)

- Developed practical understanding of project planning, execution, and stakeholder coordination for pipeline infrastructure projects.

EDUCATION

2018 - 2022

Higher Colleges of Technology, Abu Dhabi

Bachelor of Mechanical Engineering Technology

Graduated with Distinction, GPA: 3.6/4.0
