KHALAF SAEED MOHAMMED ALREMEITHI

Officer • Leader • Future Strategy & Consulting Professional

PROFILE

Commissioned officer in the UAE Ministry of Defense with eight years of leadership experience and a Bachelor in Financial Management (Abu Dhabi University, June 2026). Trained at the Royal Military Academy Sandhurst, qualified later as a specialist instructor, and led small teams on two overseas deployments alongside international partner forces. Comfortable making decisions on incomplete information, developing other people to a high standard, and translating complex problems into structured plans. Currently seeking exposure to top-tier management consulting through a structured corporate-development opportunity — to learn how the best teams structure problems and advise clients, and to bring that thinking back to the strategic work ahead.

EDUCATION

Bachelor of Business Administration, Financial Management

Abu Dhabi University • Expected June 2026

- Coursework spanning corporate finance, financial and managerial accounting, statistics and quantitative methods, business economics, strategic management, and investment and risk analysis.
- Completed in parallel with full-time officer duties — a sustained exercise in prioritization across competing high-stakes commitments.

Officer Commissioning Course

Royal Military Academy Sandhurst, United Kingdom • 2017 – April 2018

- Selected for and completed the 44-week commissioning course — an internationally recognized, highly selective program covering strategic planning, organizational behavior, decision-making under pressure, and team leadership.

LEADERSHIP EXPERIENCE

Specialist Instructor & Training Officer — Company Level

Ministry of Defense, UAE • Nov 2023 – Present

- Lead the design, delivery, and assessment of advanced specialist training at company level, with responsibility for instruction and qualification of up to 90 personnel.
- Build structured curricula and evaluation frameworks that translate complex doctrine into measurable competency standards — the same discipline that underpins clear strategy work and good client deliverables.

NATIONALITY

United Arab Emirates

"

Take responsibility, think clearly under pressure, and bring other people up.

- Brief senior leadership in both Arabic and English on program outcomes, readiness, and recommended interventions.
- Currently completing the Officer Intermediate Leadership Course (Nov 2025 – June 2026) alongside training duties; returning to the training role from June 2026.

Team Leader — Overseas Deployment

Ministry of Defense, UAE (Joint Multinational Operations) • 2022 – 2023

- Second overseas deployment in a specialist team-leader capacity, embedded with multinational partner forces — earning trust quickly across cultures, working in English, and making time-critical decisions on partial information.
- Returned with formal recognition for performance and was selected to develop the next generation of specialists as a company-level training officer.

Specialist Instructor & Evaluator Qualification

Ministry of Defense, UAE • Dec 2021 – Feb 2022

- Selected for the Instructor & Evaluator Course — a credential awarded only to high-performing specialists, qualifying the holder to train and assess others to the same standard.
- Preceded by the Advanced Tactical Leadership Course (Apr – Jun 2021), an internationally attended program focused on advanced planning and command-team integration.

Team Leader — Overseas Deployment

Ministry of Defense, UAE (Joint Multinational Operations) • Jan 2020 – Feb 2021

- First overseas deployment as a team leader less than two years after commissioning — early selection reflecting demonstrated capability.
- Led a small specialist team in joint operations alongside international partners over thirteen consecutive months; accountable end-to-end for planning, execution, and after-action review.

Junior Officer — Foundation & Specialist Training

Ministry of Defense, UAE • April 2018 – Dec 2019

- Completed the Basic Officer Leadership Course (Apr 2018 – Apr 2019) and an intensive specialist qualification course (Aug – Dec 2019), graduating into an operational role.

A NOTE FROM ME

I joined the service at fifteen and have spent more than half of my life in uniform. The skills I have built since then — leading people, breaking hard problems into structured parts, communicating clearly under pressure, and delivering on demanding timelines — are the foundations I want to keep building on, now in a different kind of environment. Whatever the next role looks like, I will bring the same standards I have held to since Sandhurst.
